

Solution Requirements (Functional & Non-functional)

Field	Details
Date	02 July 2026
Team ID	Individual Project
Project Name	Heritage Treasures: An In-Depth Analysis of UNESCO World Heritage Sites
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	User Access	- Access the application without login (public dashboards) - Optional user registration for personalized experience - Login / Logout functionality
FR-2	Dashboard Navigation	- View list of available dashboards - Navigate between dashboards - View dashboards in embedded Tableau format
FR-3	Interactive Filters	- Filter data by Country - Filter by Region - Filter by Category (Cultural, Natural, Mixed) - Filter by Year of Inscription - Filter by Danger Status
FR-4	Search Functionality	- Search heritage sites by name - Search by country or category - View search results with key details
FR-5	Data Visualization	- View charts (bar, line, pie, map, bubble) - View KPIs and summary cards - View data tables with sorting
FR-6	Tableau Story	- View interactive Tableau story - Navigate between story points - Understand insights with explanations
FR-7	Export / Share	- Download dashboard as image / PDF - Share dashboards via link - View Tableau Public link
FR-8	Responsive Design	- Support desktop, tablet and mobile views - Adjust layout for different screen sizes

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description
NFR-1	Usability	The application should be easy to use with a clean and intuitive interface.
NFR-2	Security	Ensure secure access and protect user data (if user registration is enabled).
NFR-3	Reliability	The system should be reliable and available whenever users access it.
NFR-4	Performance	Dashboards should load quickly and respond within 3 seconds.
NFR-5	Availability	The application should be available 24/7 with minimal downtime.
NFR-6	Scalability	The application should support future growth in data and users.
